PART II. — CROSS-CLASSIFICATIONS OF THE CHARACTERISTICS OF THE POPULATION

PREFACE

This publication contains particulars of characteristics of the population of Queensland recorded at the 1954 Census (Age, Conjugal Condition, Birthplace, Period of Residence in Australia of Persons born outside Australia, Nationality, Religion, Industry and Occupational Status). Information is provided — (i) for the State as a whole in comparison with earlier Censuses, (ii) for the metropolitan urban, other urban, and rural divisions of the State, and (iii) for the State as a whole in cross-classification with other recorded characteristics of the population.

Separate particulars are given for each sex, and 1954 Census totals for persons are provided for each characteristic. In addition, information is provided on the masculinity, density, and intercensal increases of the population of the State. Information for individual local government areas is not provided herein; such information is contained in Part I of this Volume — Analysis of Population in Local Government Areas, etc.

This is the fourth Part issued of the five Parts which will constitute the complete Census Volume for the State of Queensland. Part I. — Analysis of Population in Local Government Areas and in Non-municipal Towns, Part III. — Analysis of Dwellings in Local Government Areas and in Non-municipal Towns, and Part V. — Population and Occupied Dwellings in Localities, have already been issued, while the remaining Part, IV. — Cross-classifications of the Characteristics of Dwellings and of Householders, is in course of preparation. A similar Volume is being prepared for each State, for the Territories, and for Australia as a whole.

Inside the back cover of this Part is a list of 1954 Census publications issued by this Bureau.

Explanatory Notes relative to the contents of the Part follow the Table of Contents.

INDEX

EXPLANATORY NOTES

Divisions of State. — The Divisions of State for Queensland — Metropolitan Urban, Other Urban, Rural and Migratory, as defined for Census purposes and as referred to throughout this Part, are constituted as follows:—

Metropolitan Urban — comprises the Statistical Metropolitan Area of Brisbane consisting of the whole of the City of Brisbane which, although not divided for local government purposes, has been separated into forty eight defined statistical areas (geographical groups of suburbs), as detailed in the tables of Part I of this Volume (see also map accompanying Part I). Other Urban — comprises, for the 1954 Census, all cities and towns outside the Metropolitan Area as well as non-municipal towns with a population of 1,000 persons or more; for the 1947 Census, comprises all extra-metropolitan cities and towns only. Rural — comprises the remaining portions of the State and is affected by the intercensal changes in the areas of the Other Urban Division. Variation in the boundaries of divisions of State is a factor that must be borne in mind when making comparisons between Censuses. The 1947 Census boundaries of the Metropolitan Urban Area of Brisbane remained unaltered for the 1954 Census. Migratory — refers to persons not elsewhere enumerated who at midnight between 30th June and 1st July, 1954, were travelling on ships in Queensland waters, or on long-distance trains or aircraft.

Age. — In tables relating to age herein, ages recorded at Censuses have been adjusted by the distribution of unspecified ages, i.e., instances where ages have been omitted from the Census schedule. At Censuses prior to 1954 unspecified ages were distributed proportionally after completion of tabulation (over ages 15 years and upwards, except at the 1911 Census, when an attempt was made to distinguish "children" from "adults", and the distribution was made over ages 0-14 years and 15 years and over). At the 1954 Census unspecified ages were distributed over all ages prior to tabulation.

The system employed at the 1954 Census was as follows. Four packs, each of 500 cards, with ages entered thereon in appropriate proportions, were made up for each sex, and the cards were arranged in random order. The packs consisted of:— (i) a "children's" pack — ages 0-15 years, (ii) a "work force" pack — ages 16-64 years for males and 16-59 years for females, (iii) an "aged" pack — ages 65-80 years for males and 60-80 years for females, and (iv) a "general" pack — ages 16-80 years. On encountering an instance of a missing age the procedure was to determine from other information available on the Schedule the appropriate pack to be used, and the range within which the missing age must lie. This pack was then searched until the first card containing an age within that range was found, and the age thereon was inserted on the Schedule. When no supplementary information was available to determine a range of age, the "general" pack was used. A more detailed explanation of this procedure will be contained in the Statistician's Report.

Nationality. — In all Census tabulations naturalized British persons are included under the heading "British". Separate particulars of these persons are not available.

Religion. — Under the Commonwealth Census and Statistics Act the Census question on religion has always been optional, but it was not until the 1933 Census that this was stated on the Census form, a practice that has been continued at subsequent Censuses. The very large increases since 1921 in the number of persons who apparently were unwilling to answer the enquiry are attributed to the explicit statement that an answer was not obligatory.

Industry. — Comparisons of particulars of industry for the 1954 Census with those of previous Censuses are not provided herein, both because of the size of the tables involved and because changes in industry classification between Censuses make accurate comparison difficult, if not impossible.

The broad features of this Part may be ascertained from the Table of Contents on page 2, but to facilitate reference to particular subjects an index is also provided — see end of publication.

This Part contains particulars relating to each characteristic of the population obtained from the 1954 Census tabulations. However, additional information is available in some instances, but limitations of space prohibit its publication in complete detail. Such additional information relating to this Part and also to Part I. — Analysis of Population in Local Government Areas, etc. may be obtained on inquiry from the Commonwealth Statistician.

Particulars of full-blood aboriginals are excluded throughout.

In this publication certain instances of incorrect data which appeared in Part I have been corrected.

CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 1954.

NOTE. — "Not at Work", as shown in Tables Nos. 43–52, includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.
